

# Changemakers Food for All

Tuesday 15th February

## Global Goals

#### THE GLOBAL GOALS

For Sustainable Development

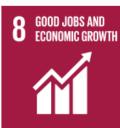

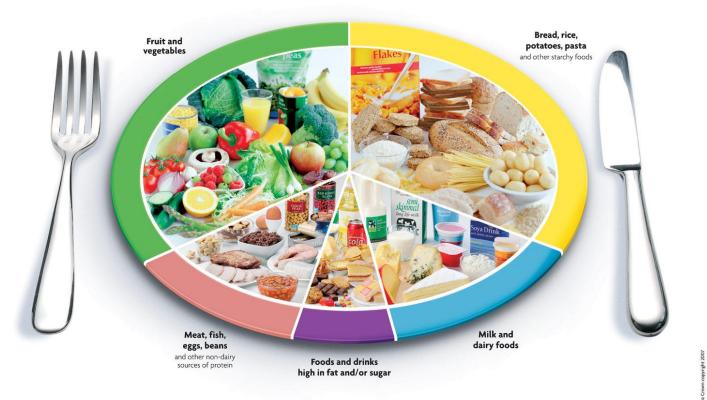

## What foods to we need for a healthy body?

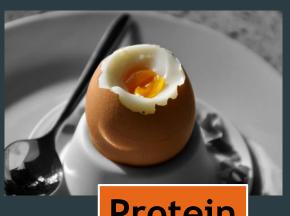

#### The eatwell plate

Use the eatwell plate to help you get the balance right. It shows how much of what you eat should come from each food group.

## Which group do they belong to?

**Dairy** 

**Protein** 

**Fruit** 

Carbohydrate

**Protein** 

### But what if you don't have enough food?

around the world, according to the latest figures.
That is the highest figure recorded since 2008-2010.

#### Why are more people living with hunger?

Growth in the global hunger epidemic can be attributed to three main reasons...

 The world's population is swelling, with more people born into poverty and hunger every day.

 Global warming is also becoming a huge issue. Global warming increases the prevalence of natural disasters and extreme weather conditions.

3. Conflict and social unrest are now heightening across Africa and the Middle East too, which displaces millions of people each year.

Although we await official figures, the Covid-19 pandemic has likely had a massively damaging impact on world hunger.

#### Who can help?

### How can you help?

SUYEK SPEED

The Injecto-bly is really quick so that it can inject people in less than 5 seconds when a human takes around 5 minutes.

Good Bye (OVID-19

Being able to vacine people, the injecto-ly will be able to give the covid vacine to over half of Britain in 1 day which means Covid will go away quicker.

OPEN NE

By Ella R CAN SAVE THE WORLD

Because of how quick and efficient this fly is, the rate of illness will go down were low. Who knows maybe the only illness that will be around in the future will be the common cold.

## Prayer

Today we give thanks for the wonderful food we eat and for all those who work so hard to provide our food each day.

We thank you for Mr Banham and all the ladies who cook our meals at school.

We thank you for our parents and families who provide our food at home.

We thank you for all the shopkeepers, the farmers, the fishermen, the factory workers who make it possible for us to have so many different foods.

We remember all those children across the planet, who may not be so lucky and go hungry Bless those who work hard to bring them emergency food and the means to provide food for life.

Amen
