

Progression – Structures

EYFS

Children explore a range of materials and begin to see how a structure can be formed by stacking and joining item together

Year 1 & 2

Children begin to join products together to create a finished free-standing product. With support they explore how structures can be made stronger and more stable.

Year 3 & 4

Children can build shell structures with increasing independence and accuracy. They demonstrate an understanding of how they can be made stronger and more stable. Computer aided design is introduced.

Year 5 & 6

With increasing independence and ability, Children build innovative, functional, appealing, stable structures that are fit for purpose. They can Demonstrate confidently how to reinforce and strengthen a 3D framework.
